A Product of the Youth Workgroup of the Missouri Comprehensive Prevention Planning Group (CPPG)

About the Youth Workgroup and CPPG

Youth Workgroup

Mission:

The mission of the Youth Workgroup is to provide recommendations to the Statewide Comprehensive Prevention Planning Group (CPPG) regarding best practices, strategies, and techniques to promote youth engagement and age-appropriate sexual health education to the young people that we serve.

Vision:

The vision of the Youth Workgroup is to serve as a model for community, local, and state partners who provide quality recommendations regarding HIV and STD prevention derived from state and national educational standards.

Description:

The Youth Workgroup is a group comprised of youth health educators, school professionals, local public health department staff, members of the Statewide Comprehensive Prevention Planning Group (CPPG), program coordinators, as well as participating Missouri youth. We believe that the most effective avenue to promote youth engagement and age-appropriate sexual health education is to include youth in planning and implementation processes and use their voice as a gateway for present and future program direction.

About the Comprehensive Prevention Planning Group (CPPG)

The mission of the Missouri Comprehensive Prevention Planning Group is to inform the development or update of the Missouri Department of Health and Senior Services (HD) Jurisdictional HIV/STI/Hepatitis Prevention Plan that will contribute to the reduction of new infections, address the challenges of the epidemics, and maximize the effectiveness of current prevention methods by:

- Identification of appropriate stakeholders
- Engaging in a results-oriented process
- Ensuring that the goals of the National HIV/AIDS Strategy (NHAS) are achieved, along with the statewide Viral Hepatitis (VH) and Sexually Transmitted Infection (STI) strategic plans
- Utilizing a High Impact Prevention (HIP) approach
- Developing, implementing, and monitoring a jurisdictional plan

Purpose of this directory or resources:

This directory serves as a resource to assist health educators, teachers, public health department personal, and others seeking resources to assist young people in reaching their sexual health goals. This directory is not exhaustive. However the included resources have been reviewed and approved by the state of Missouri's Youth Workgroup.

What is in this directory:

Within this directory are listings of educational websites that may be referenced for sexual health materials, information and lesson plans including but not limited to sexually transmitted infections (STIs) and human immunodeficiency virus (HIV) education and prevention, healthy relationships, communication skills, sexual consent, sex myths, birth control, how to talk with your kids about sex, LGBTQIA issues and policy development, research and trends in sexual health for adolescents, and the National Sexuality Education Standards.

Disclaimer:

Missouri's Youth Workgroup and any/all entities utilized to develop this directory are not liable for the content found within this resource. This directory is intended to assist youth serving professionals in locating credible resources to assist in the development of sexual health programming for youth. Topics covered in this directory were listed at random and with no preference given to any singular topic. Resource listings are purely informational and are not endorsed by or supported by the Youth Workgroup or the Missouri CPPG.

Directory outline:

Category/subject header
Title of resource
Resource mission/vision statement
Website link

Note: Though many of the resources are listed multiple times throughout the directory, the actual websites differ, as each link is directed to the specific category/subject that it is listed under.

Safer Sex:

American Sexual Health Association (ASHA)

The American Sexual Health Association promotes the sexual health of individuals, families and communities by advocating sound policies and practices and educating the public, professionals and policy makers, in order to foster healthy sexual behaviors and relationships and prevent adverse health outcomes.
